

Village of Tupper Lake
Board of Trustees
Agenda

Date: Wednesday, July 18, 2018
Start: 6:00 PM
Location: Board Room
Meeting: Regular Monthly

1. Call Regular Monthly Meeting to order and establish the agenda.
2. Pledge of allegiance and moment of silence for the safe return of Colin Gillis.
3. Approve the Board Minutes from the June 20, 2018 meeting.

Department Reports

Code Enforcement:

1. Approve the June 2018 Monthly Code Report.
2. Miscellaneous updates.

Community Development:

1. Formally approve resolutions for the LWRP and Main Street Program grants as presented for this year's CFA grant funding round.

Police:

1. Approve the June 2018 Monthly Police Report.
2. Authorization to host "Touch A Truck" in the Municipal Park on September 8, 2018.

Fire:

1. Approve the June 2018 Monthly Fire Report.

DPW:

1. Miscellaneous updates.

Water/Wastewater:

1. Permission for the licensed operators to attend the NNYWW Conference August 17, 2018 in Alexandria Bay, NY.
2. Miscellaneous updates.

Electric:

1. Authorization to proceed with MRB Group as our professional design consultant for our Tupper Lake Municipal Electric Garage project.
2. Authorization to go to bid for Tree Trimming and Removal service for Route 30 South.
3. Formally accept bid of \$4,200 for the sale of the 2008 Chevy Silverado 1500 pick-up from Auctions International
4. Formally discharge a deceased customer's electric balance in the amount of \$82.25.
5. Discuss and authorize our participation in an EV Charging Station program.
6. Discuss Unit #7 Bucket Truck replacement.
7. Miscellaneous updates.

Treasurer:

1. Approve the July 18, 2018 warrant in the amount of \$536, 524.44 for payment of the bills and to also approve the abstracts for the month of June 2018.
2. Review the monthly cash position for June 30, 2018.

Executive Session:

1. Enter Executive Session to discuss to discuss the medical, financial, credit or employment history of a particular person or corporation, or matters leading to the appointment, employment, promotion, demotion, discipline, suspension, dismissal, or removal of a particular person or corporation.

Mary,

Thank you to all our
Village employees at
making Tinnman
successful for another
year.

All your hard work is
appreciated.

Sincerely,
Tupper Lake Chamber of Commerce
and Tinnman

TUPPER LAKE CHAMBER OF COMMERCE

121 Park Street Tupper Lake, NY 12986

**THANK
YOU!**

END OF SESSION LEGISLATIVE UPDATE

June 28, 2018

The regular portion of the 2018 Legislative session ended late last week. Of greatest significance are those bills that passed both houses and which will be presented to the Governor for his approval or veto. Now is the time to weigh in with the Governor's office prior to his action on such bills. Letters of support or opposition on a particular bill should be sent to the Governor's Counsel Alphonso David via fax (518-486-9652) or email (legislative.secretary@exec.ny.gov). NYCOM will be putting together a comprehensive Summary of Legislation once all bills that passed both houses have been acted upon by the Governor.

The second portion of this Legislative Update lists some key bills of interest that did not pass both houses, but of which we wanted to keep you informed. If you have any questions, please contact NYCOM Deputy Director Barbara Van Epps at Barbara@nycom.org or 518-463-1185.

PASSED BOTH HOUSES

Damages for Delay – A. 7945 (Kim) / S. 6686 (Ranzenhofer) – NYCOM Opposes

Would expose public entities to open ended liability by allowing for damages against the public owner for any construction contract delays, as broadly defined in the bill. This will make public contracting far more contentious, litigious and expensive.

STATUS: Awaiting Delivery to the Governor

Labor Class Employee Discipline – A.11223 (Abbate) / S.8973 (Golden) – NYCOM Opposes

Would amend the Civil Service Law to provide that an employee who has held a position in the labor class for at least five years shall be entitled to the discipline procedure set forth in §75.

STATUS: Awaiting Delivery to the Governor

Health Insurance Contract Change – A.10337 (Abinanti) / S.8118 (Tedisco) – NYCOM Opposes

Would mandate the time and manner in which a municipality must notify their retired officers, employees and their families of proposed health benefit contract changes. Specifically, this legislation would require municipalities to give retirees and their families a minimum of 30 days notice of any proposed health insurance plan changes *prior to the governing board or public corporation authorizing or approving a health insurance contract change*. In the case of an officer or employee that is part of a collective bargaining unit, the municipality would have to provide such notice at the time such health insurance contract is binding.

STATUS: Awaiting Delivery to the Governor

MRSA Health Presumption – A.8164-B (Brindisi) / S.3770-B (Akshar) – NYCOM Opposes

Would provide police officers and firefighters with a presumption that if MRSA is contracted that it was done so in the line of duty, unless it can be refuted by the municipality.

STATUS: Awaiting Delivery to the Governor

Expansion of Town and Village Justice Jurisdiction for Off-Hours Arraignments – A. 8177 (Skartados) / S. 6538 (Bonacic) – *NYCOM Supports*

Would amend the Uniform Justice Court Act to correct an oversight in Chapter 492 of the Laws of 2016, which authorized the establishment of off-hours arraignment parts. Specifically, this measure would permit village and town justices to hold their courts outside their respective villages and towns for the limited purpose of presiding over an off-hours arraignment part established in another municipality located in the same county.

STATUS: Awaiting Delivery to the Governor

Increased Land Banks Authorization – A.11233 (Barrett) / S.8717 (Serino) - *NYCOM Supports*

Would Increase the number of land banks that may be formed from 25 to 35.

STATUS: Awaiting Delivery to the Governor

Tax Lien Sale Extender – A. 11006 (Otis) / S. 8952 (Hannon) – *NYCOM Supports*

Would permit those villages who opted out of the tax foreclosure process in 1994 to continue to conduct tax lien sales as a means of enforcing collection of delinquent property taxes until December 31, 2021.

STATUS: Awaiting Delivery to the Governor

Tax Exemption After Taxable Status Date – A. 1647 (Galef) / S. 2273 (Hannon) – *NYCOM Opposes*

Would, at local option, permit a municipality to enact a local law or resolution to grant a real property tax exemption to any nonprofit organization that purchases real property after the municipality's taxable status date.

STATUS: Awaiting Delivery to the Governor

School District Contribution to Crossing Guards Compensation – A. 2954-B (McDonald) / S. 367-B (Little) – *NYCOM Supports*

Would amend the General Municipal Law to allow educational institutions to pay for all or a portion of the salaries and compensation payable to newly hired school crossing guards.

STATUS: Awaiting Delivery to the Governor

Cooperative Purchasing Extender – A. 1541-B (Jenne) / S. 2947-A (Little) – *NYCOM Supports*

Would extend, to July 31, 2021, the authorization to engage in cooperative purchasing or piggybacking contracts.

STATUS: Awaiting Delivery to the Governor

Statewide LEAD Program – A. 10403 (Fahy) / S. 8760 (Amedore) – *NYCOM Supports*

Would dedicate asset forfeiture revenues to Law Enforcement Assisted Diversion (LEAD) programs so that individuals with substance abuse and mental health issues can be placed in a community-based diversion program as opposed to being combined with the general prison population.

STATUS: Awaiting Delivery to the Governor

Water Use Data – A. 11118-C (Otis) / S. 8999-B (Mayer) – *NYCOM Supports*

Would require water works corporations to provide water usage data by property address to municipalities for purposes related to the financing of clean, storm, or drinking water infrastructure projects and service.

STATUS: Awaiting Delivery to the Governor

Water Quality Improvement Projects – A. 9979-A (Thiele) / S. 7853-A (LaValle) – *NYCOM Supports*

Would include the construction of public water mains and connections to provide drinking water to residents whose drinking water supply has been contaminated by toxic chemicals, hazardous substances, or emerging contaminants within the definition of a water quality improvement project.

STATUS: Awaiting Delivery to the Governor

OTHER BILLS OF INTEREST THAT DID NOT PASS BOTH HOUSES

Shortened *In Rem* Tax Foreclosure Redemption Period for Abandoned Property – A. 2490-A (McDonald) / S. 175-A (Marchione) – NYCOM Supported

Would have shortened the *in rem* tax foreclosure redemption period to one year for property that has been declared abandoned pursuant to Real Property Actions and Proceedings Law Article 19-A.

STATUS: Assembly: Passed

Senate: Rules

Redevelopment-Inhibited Property Tax Exemption – A. 4450 (Schimminger) / S. 3878 (Ranzenhofer) – NYCOM Supported

Would have authorized local governments to establish a property tax exemption on the increased assessment associated with the repair and redevelopment of certain dilapidated residential properties, to the extent that the assessment would appreciate as a result of the repair and redevelopment.

STATUS: Assembly: Real Property Taxation

Senate: Passed

Restriction of Retainage on Construction Projects – A. 6572-A (Cusick) / S. 4267-A (DeFrancisco) – NYCOM Opposed

Would have restricted the ability of public entities to hold a small portion of payment for an existing construction project by requiring full payment when a portion of the building is occupied or is otherwise available for its intended use.

STATUS: Assembly: Rules

Senate: Passed

Expansion of Prevailing Wage – A. 5498-A (Bronson) / S. 2975-A (Murphy) – NYCOM Opposed

Would have subjected all projects financed, in whole or in part, by local governments to prevailing wage requirements.

STATUS: Assembly: Passed

Senate: Finance

Assessment Methodology for Condominiums and Cooperatives – A. 2874-A (Galef) / S. 1191-B (Little) – NYCOM Supported

Would have amended Real Property Law § 339-y and Real Property Tax Law § 581, so that market value – rather than income-producing value – would have become the valuation method for condominium and cooperative property. This would have removed the artificial and inequitable cap on condominium and cooperative assessments.

STATUS: Assembly: Passed

Senate: Rules

Local Gross Receipts Tax (GRT) Applicability – A. 8295 (McDonald) – NYCOM Supported

Would have clarified that if a gas or electric transaction was requested or received by a customer located within the boundaries of a municipality that imposes a local GRT, such transaction would be subject to such local GRT.

STATUS: Assembly: Cities

Cellular Services and Local Gross Receipts Tax (GRT) – A. 196 (Gantt) – NYCOM Supported

Would have authorized cities and villages to impose a local gross receipts tax on mobile telecommunications services.

STATUS: Assembly: Local Governments

Interest Rate on Judgments – A. 6965 (Schimminger) / S. 4755 (Griffo) – NYCOM Supported

Would have provided for an interest rate on judgments and accrued claims that is tied to a market-rate as opposed to the current fixed rate of 9%. If enacted this would have not only have generated savings for local governments, but would have also removed the incentive for plaintiffs to unnecessarily delay proceedings. Linking the rate of judgment interest to the market rate is already the law in many other states.

STATUS: Assembly: Banks

Senate: Banks

Expansion of Municipal Deposit Options – A. 7619 – Zebrowski / S. 286 (Robach) – *NYCOM Supported*

Would have allowed savings banks, savings and loan associations, federal savings associations and credit unions to accept deposits from municipalities.

STATUS: Assembly: Banks

Senate: Local Government

Arterial Maintenance Rate Increase – A. 5741 (Rozic) / S. 4175 (Golden) – *NYCOM Supported*

Would have increased the reimbursement rate, from .85 to \$1.77 per square yard, paid by the State to 38 cities that maintain State arterials passing through such cities.

STATUS: Assembly: Transportation

Senate: Transportation

Police Disciplinary Rights – S. 8270-B (Golden) – *NYCOM Opposed*

Would have overturned recent court decisions that invalidated police disciplinary procedures contained in collective bargaining agreements and made police and firefighter discipline a mandatory subject of negotiation under the Taylor Law. This bill also would have impacted municipalities subject to special police acts or other special acts created by local law or charter. A similar bill (A.10736-A – Abbate) was introduced in the Assembly but also died in committee.

STATUS:

Senate: Passed

Optional Twenty-Year Retirement Plan – A. 8017-A (Abbate) / S. 4540-A (Young) – *NYCOM Opposed*

Would have amended the Retirement and Social Security Law by adding a new Article 26 to grant police officers and professional firefighters the opportunity to participate in a non-contributory twenty-year retirement if their employer elected to do so. This bill passed in 2015 and 2016 but was vetoed by the Governor.

STATUS: Assembly: Ways and Means

Senate: Finance

Cancer Presumption for Paid Firefighters – A. 6501 (Abbate) / S. 4564 (Golden) – *NYCOM Opposed*

Would have assumed that any condition or impairment of health caused by a wide variety of cancers was the result of a paid firefighter's occupation, and therefore such firefighter would have been eligible for certain disability benefits.

STATUS: Assembly: Ways and Means

Senate: Passed

EMS Cost Recovery – A. 7717-B (Jones) / S. 363-B (Little) – *NYCOM Supported*

Would have given municipalities the option to establish a schedule of fees for emergency medical and transport services rendered by members of a volunteer fire department or fire company.

STATUS: Assembly: Local Governments

Senate: Finance

VFBL & VAWBL Disability Benefit Increase – A. 6367-A (Magnarelli) / S. 3904-A (Griffo) – *NYCOM Opposed*

Would have amended the Volunteer Firefighters' Benefit Law and the Volunteer Ambulance Workers' Benefit Law by increasing the benefits afforded to those volunteers who sustained a total permanent disability or partial permanent disability while in the line of duty, from \$400 per week to \$650 per week.

STATUS: Assembly: Passed

Senate: Finance

Salary Cap for Pensioners – A. 3327-C (McDonald) / S. 3576-B (Tedisco) – *NYCOM Supported*

Would have increased, from \$30,000 to \$35,000, the amount a New York State public employee retiree could earn in public employment without negatively impacting their pension benefits.

STATUS: Assembly: Passed

Senate: Rules

Parking Ticket Accusatory Instrument Fix – A. 8687-A (Otis) / S. 9075 (LaValle) – NYCOM Supported

Would have clarified that local government officials are not required to file separate accusatory instruments for traffic infraction appearance tickets. This clarification is necessary because recent appellate court decisions ruled against this practice, dismissing cases on the grounds that the traffic/parking tickets filed with the court were insufficient under criminal law as an accusatory instrument.

STATUS: Assembly: Passed

Senate: Rules

Harmful Algal Blooms – A. 10994 (Rosenthal) / S. 7752 (Murphy) – NYCOM Supported

Would have authorized the Legislative Commission on Rural Resources to study the effectiveness of pond and lake management systems as they relate to harmful algal blooms (HABs). This would have also provided for the comprehensive control and mitigation of HABs in both marine and fresh water, and provided for the establishment and deployment of emergency responses in response to HAB water contamination in potable water sources by the Department of Environmental Conservation.

STATUS: Assembly: Env. Conservation

Senate: Passed

Plastic Bag Prohibition – Governor's Program Bill #22 – S. 8257 – NYCOM Opposed

Would have prohibited the provision of plastic carryout bags at all locations selling to customers. Additionally, this bill would have authorized the Department of Environmental Conservation to impose fees or other measures designed to reduce the use of single use plastic bags.

STATUS:

Senate: Rules

Net Neutrality – A. 8882-C (Fahy) / S. 7183-C (Carlucci) – NYCOM Supported

Would have required the Public Service Commission to oversee the distribution of broadband internet service within the State, as well as develop and maintain a statewide plan to monitor and ensure the delivery of service-neutral internet to broadband consumers.

STATUS: Assembly: Passed

Senate: Rules

Safe Water Infrastructure Action Program – A. 3907-A (Steck) / S. 3292-A (Tedisco) – NYCOM Supported

Would have provided funding to municipalities to replace and rehabilitate existing municipally-owned and funded drinking water, storm water, and sanitary sewer systems through a similar methodology employed by the Consolidated Local State and Highway Improvement Program (CHIPS).

STATUS: Assembly: Env. Conservation

Senate: Passed

Salary – A. 2040-C (Crespo) / S. 6737 (Carlucci) – No Position

Would have prohibited employers from being able to ask prospective hires about their salary history.

STATUS: Assembly: Passed

Senate: Labor

Recreational facilities which will have structures

Office, Professional:

A commercial use where persons are engaged in the following activities, including but not limited to: accountants, bookkeeping, abstractor, architects, attorneys, psychologists, counselors, chiropractors, physicians, dentists, psychiatrists, clinics, engineers, veterinary practice and similar activities.

Open Space Recreation:

Means any recreation use particularly oriented to and utilizing the outdoor character of an area, including a snowmobile, trail bike, jeep, or all-terrain vehicle trail; cross-country ski trail, hiking and backpacking trail; bicycle trail; horse trail; playground, picnic area, public park, public beach, or similar use. A use involving filling of wetlands or substantial construction or land disturbance is not an open space recreation use.

Outdoor Storage:

Means the practice of commercial uses whereby goods for sale or rental and/or equipment used to provide services offered in connection with the activity are located out-of-doors, not in a building.

Parking Space:

One off-street minimum gross area available for the parking of an automobile in accordance with the requirements of this code.

Parapet or Parapet Wall:

That part of any wall above roof line.

Personal Service Shop:

A commercial use including but not limited to the following: barbershops, hairdressers, dry cleaners, laundromats, and similar uses.

Public Service Facility:

Non-commercial uses including both public and semi-public facilities, including, but not limited to; public and private schools, libraries, churches, parks, cemeteries, and similar facilities.

Recreational Business:

Means a commercial use including, but not limited to, drive-in theaters, stadiums, golf-driving ranges, miniature golf courses, tourist attractions and similar uses.

Recreational Facility:

Means campgrounds, group camps, ski centers and their related tourist accommodations, recreational trails, golf courses, playground, picnic area, public park, public beach or similar use.

[Letterhead]

Resolution ##

Resolution by the Village of Tupper Lake Board of Trustees approving and endorsing the Franklin County Local Development Corporation's application to NYS Homes and Community Renewal for funding under the New York Main Street Program for building renovation projects in the villages of Saranac Lake and Tupper Lake

WHEREAS, the Franklin County Local Development Corporation (FCLDC) desires to apply for \$500,000 in financial assistance through the 2018 Consolidated Funding Application under the New York Main Street Program; and

WHEREAS, the application proposes funding to assist mixed-use building renovation projects along Main Street and Broadway in the Village of Saranac Lake and along Park Street in the Village of Tupper Lake; and

WHEREAS, the proposed funding will contribute to ongoing community revitalization efforts in both communities; and

WHEREAS, the grant application requires that the applicant obtain the approval and endorsement of the governing body of the municipality in which the projects will be located.

NOW, THEREFORE, BE IT RESOLVED, that the Village of Tupper Lake Board of Trustees approves and endorses the 2018 Consolidated Funding Application under the New York Main Street Program prepared and to be submitted by the Franklin County Local Development Corporation; and

BE IT FURTHER RESOLVED, that the Board of Trustees authorizes the village code enforcement officer to annually inspect building improvements assisted with New York Main street funds within the Village of Tupper Lake during the five-year regulatory period and provide inspection reports to the FCLDC.

[Include Results of Vote]

[Include Signature/Certification of the Clerk]

[Include Official Seal]

RESOLUTION IN SUPPORT OF
2018 LOCAL WATERFRONT REVITALIZATION PROGRAM GRANT
CONSOLIDATED FUNDING APPLICATION

WHEREAS a notice of funding availability for Local Waterfront Revitalization Program grant funds has been made by the Department of State in the 2018 CFA Round; and

WHEREAS the Village of Tupper Lake seeks to advance goals and priority projects of its LWRP Component 2013 Revitalization Strategy and follow up 2015 Park Master Plan, developed with funding from the Local Waterfront Revitalization Program; and

WHEREAS the Village of Tupper Lake, in partnership with the Town of Tupper Lake, seeks to utilize this previous planning to prepare a full Local Waterfront Revitalization Program; and

WHEREAS the Village of Tupper Lake also seeks to work with the communities of Malone and Saranac Lake to advance their LWRP implementation and Downtown Revitalization Initiative efforts; and

WHEREAS, the Village of Tupper Lake Board of Trustees fully supports the proposed projects included in the funding application;

NOW HERE BE IT RESOLVED:

That Mayor Paul Maroun, as Mayor of the Village of Tupper Lake, is hereby authorized and directed to file an application for funds to the New York State Department of State Local Waterfront Revitalization Program.

Be it further resolved that the Mayor is hereby authorized to act on behalf of the Village of Tupper Lake Board in all matters related to this financial assistance, and upon approval of said request, to enter into and execute a state assistance contract for such financial assistance. The attached Resolution shall take effect immediately.

CERTIFICATE OF RECORDING OFFICER

I, Mary Casagrain, the duly qualified and acting Clerk of the Village of Tupper Lake, New York, do hereby certify that the attached resolution was adopted at a regular meeting of the Tupper Lake Village Board held on July ____, 2018 and is incorporated in the original minutes of said meeting, and that said resolution has not been altered, amended or revoked and is in full force and effect.

From: Melissa McManus <tupperlakecommunitydevelopment@gmail.com>
Date: 7/13/2018 6:01 PM
To: Carrie Tuttle <ctuttle@danc.org>, Ishai Olikier <jtcincorp@optonline.net>, Mary Casagrain <villtupplake@centralny.twcbc.com>, Jim Ellis <jEEP74@roadrunner.com>

Hello,

Attached please find draft meeting notes for your review, along with updated financial projections.

Would you please review, track changes with any proposed edits and return to me by Wednesday, July 18?

Sy, thank you for providing the name of the ESD Project Manager. Will it be possible for you to provide the Phase I info described in Next Steps by Monday, July 30?

Have a good weekend,
Melissa

District Heating Project Discussion

July 12, 2018 Meeting Notes

Attending:

Mary Casagrain
Carrie Tuttle
Jim Ellis
Ishai (Sy) Olikier
Melissa McManus

Review of Draft District Heating Feasibility Study:

Page 5:

- a. Village requested clarification of 28 customers included in table vs. 22 customers in ESD Incentive Proposal language.
 - a.i. Sy indicated that the project funded by ESD includes only Customers #1-22.
- b. Village requested clarification on "Part of Houses"
 - b.i. Sy indicated that this assumes groups of single family houses in these areas will participate, actual numbers not determined at this time
- c. Village requested clarification on the level of commitment of identified customers.
 - c.i. Sy indicated that all customers included had indicated interest in 15 – 20% heating savings on BTUs delivered. Customers have not received or signed draft agreements detailing proposed system charges.

Page 11, Figure 4:

- a. Sy pointed out to the group that the proposed Phase I of the project would only include construction of the district heating building and installation of one wood fired boiler and 1-2 backup oil boilers, reducing the cost of the district heating plant by one half.

Page 12:

- a. Village requested information on the sources of cost figures included in Table 2.

- a.i. Sy indicated that these numbers were March 2018 numbers based upon his experience in previous system build outs.
- a.ii. The Village requested all quotes and data used to develop the numbers.
 - a.ii.1. Sy indicated that he was unable to provide the information to the Village prior to NYSERDA approval, but he will provide contact info for NYSERDA rep so the Village can request directly.

Page 15:

- a. Village requested clarification of schematic map illustrative proposed piping system.
- b. The Village also inquired as to whether costs of survey, any required easements and permitting of pipe installation were included in the \$380,000 Architectural/Engineering and other Soft Costs included in Table 6 on Page 30.
 - a.iii. Sy indicated that these costs were not included and that the project would not require these items, since the construction would be in Village ROW.
 - a.iv. Village staff requested clarification of the two indicated crossings of Route 3, which would appear to be required to service the 22 customers included in the ESD Incentive Proposal.
 - a.v. DANC indicated that regulatory agencies would require advanced design requiring surveys.
 - a.vi. Village staff, DANC and Mr. Ellis all agreed that there would be surveys required to proceed with the level of design required to secure permits and refine project cost projections.
 - a.vii. The Village will therefore need to budget for this, as reflected on the attached financial projections.

Page 16:

- a. Village requested source of costs included in Table 3, year cost figures were produced and if per unit costs were used.
 - a.viii. Sy indicated that the cost figures were from last year and that per unit costs had not been calculated.

2) Page 30: Project Construction Cost

- a. Village staff asked whether Sy had any potential sources in mind for grants mentioned.
 - a.i. Sy was aware of no grant programs that could close the funding gap, but he has spoken to USDA, who would be willing to provide a 30 year loan at 4% interest to the Village.
 - a.ii. Village staff expressed concern re: the difficulty in formulating a proposal and securing funding based upon both the current information gaps in the proposed project and the size of the current

funding gap. It would appear that the only logical ask would be for funds to conduct further design and feasibility assessment that would arrive at actual project costs and customer costs and develop draft user agreements.

- b. Extensive discussion ensued about Sy's contention that the Village would need to certify Water System employees in welding techniques, and then have employees complete piping installation in order to make the project affordable.
 - b.i. Certification would take 1 month for those who had existing experience. While one person can handle upkeep and subsequent connection, Sy indicated that a second welder may be needed for Phase 1 when the Village installs piping.
 - b.ii. Village staff indicated that it was highly unlikely that Water Department staff would be able to forgo regular tasks for the 2-3 month construction period required.
 - b.iii. Sy eventually indicated that the \$3,384,000 estimated for "District Heating Piping" assumes contractor installation of piping.

Operations and Maintenance

The group discussed the proposed new utility and reviewed municipal requirements re: utilities. Mary indicated that a district heating utility would require a separate account, with expenditures charged against the system.

ESD Funding

Melissa clarified the report language re: ESD funding based upon discussions with Rosemary Redmond, the ESD Project representatives:

- 1) The \$1.4 million award from ESD can only be used for district heating plant construction
- 2) Receipt of \$1.4 million is contingent upon expenditure of \$7.4 million.
- 3) ESD is open to proposals to scale back the project, but funding will be reduced proportionally in project expenditures decrease
- 4) ESD funds must be expended by Feb 2021, although an extension is possible for project completion, if substantial progress is demonstrated.

The group discussed the risk of funding consultant services through ESD, since funds will only be reimbursed in the project is completed.

Village staff highlighted the grant's required MWBE participation requirement, which is \$420,000

Project Financials

The group reviewed a capital cost budget based upon numbers included in the draft report. A preliminary annual operational budget was also reviewed. Documents revised based upon meeting discussion are attached.

Next Steps

- 1) Phase 1
 - a. Sy to send a detailed project description, revised schematic and detailed cost for Phase I.
- 2) ESD
 - a. Sy to provide NYSERDA Project Manager contact info
- 3) Project Summary
 - a. Melissa to prepare a brief project summary of key details and remaining information needs, in consultation with Carrie Tuttle
 - b. The possibility of presenting the summary to the Village Board in September was discussed.

Sustaining Operations

Debt Service	Initial Cash	\$140,000	
	Loan	\$5,860,000	
Total Borrowing		\$6,000,000	
Annual System Expenditures			
Personnel		?	
Debt Service		\$343,740	(assumes 30 year 4% interest USDA loan)
O&M		?	
Capital Reserve		?	
TOTAL			
System Revenue			
Mercy Health		\$200,000	(assumes Village bills Mercy Health for full amount of savings - \$230K vs. \$430K per year)
Other System Users		?	
TOTAL

Hi Mary

In follow up to our conversation, I have attached a brief overview of the new firefighter's Cancer benefit effective 1/1/19.

The benefit/product is still in the development stage and should be available in mid September with the final benefit design and cost.

We are working with the insurance carriers so that we can provide this benefit to our municipal clients.

Please call with any questions and we will keep you apprised of information as it becomes available.

Thank you

2019 NYS Firefighter Cancer Benefit Programs

- This benefit will be effective January 1, 2019 and it is a benefit to offer a solution to firefighter's concerns for their health and exposure to cancer-causing materials.
- NYS would provide a programs with three primary components
 - Lump Sum Cancer Plan
 - Complements existing medical coverage with lump-sum benefit
 - Helps to fill financial gaps caused by out of pocket expenses associated with cancer
 - Payments are made directly to the covered firefighter

BURNHAM

ESTABLISHED 1977

NYS Firefighter Cancer Benefit Programs

- **Death Benefit**
 - Pays \$50,000 to beneficiaries of a covered firefighter who passes away from cancer
- **Disability**
 - Helps protect financial security during challenging cancer diagnosis
 - Helps to fill financial gaps caused by out of pocket expenses
 - Payments are made directly to the covered firefighter

ESTABLISHED 1977

Frequently Asked Questions

- **Q: When does the Program Begin?**
- **A: Coverage for eligible volunteer firefighters begins on 1/1/19.**
- **Q: How do I know if my fire service entity is required to comply with the Bill?**
- **A: In most basic terms, if your entity –fire district, dept or company utilizes volunteer firefighters, then your fire service entity is subject to the Bill.**
- **Q: Is NYS creating an insurance program at the State Level?**
- **A: No. Insurance will be provided by private NYS Ins. Companies**
- **Q: What is the estimated cost for the Program?**
- **A: The cost has not been finalized; however, it is estimated at approximately \$250/year per firefighter.**

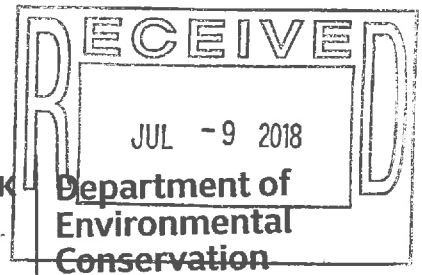

THIS IS A BRIEF OVERVIEW OF THE NEW MANDATE AND FUTURE UPDATES WILL BE PROVIDED

**Division of Mineral Resources
Mined Land Inspection Report**

MineID: 50081
Status: Active
County: Franklin

Company Name: Tupper Lake, Village of
Mine Name: Tupper Lake Sand Pit
Town: Altamont

Inspection Date: 7/2/2018
Weather: hot, 90 degrees
Persons Interviewed: no-one

Inspector: Joseph Barbeito
Inspection Type: Routine Inspection

Comments:

The pit was not in-operation on this extremely hot day. The 1.9 acre reclaimed area in the eastern-side of the pit does not appear to be revegetating well. Grass coverage was only at 25%, which is worse than it was last year. Coverage was estimated to be 60% in the S.E. area on my last site inspection, on October 30, 2017. Overall, the soil is very coarse and rocky and contains very-little organic matter. Attaining a 75% coverage level could be difficult and present a long-term problem- given the harsh growing conditons.

The access road will require several cross-ditches constructed in the north-east, where a section of access road- leads to the C & D burial area. One cross-drain should be located farther north on the access road, where the terrain is flatter. This ditch should drain westerly and into the pit. Slightly farther north, on this same uimproved road, about 1/2 way down the slope- a 2nd cross-drain is needed. This 2nd. drainage ditch should drain easterly, away from the pit.

The last item concerns a number of pieces of rebar pipe that were sticking-up into the air and were located in the NE part of the pit. I attached orange flagging to those above ground-as a safety warning. Please remove, or, bury this material appropriately, ASAP, as it does present a safety hazard. Please contact me if you have any questions, thank you.

Subject: Re: change order

Dear Greg,

Many thanks for the update. Could you give me your best estimate for a delivery date? As I mentioned in my voice mail Friday, will Adirondack Natural Stone honor the original bid price as originally accepted eventhough their are additional pieces?

I will have Kurt send along the degree of the angles shortly.

I look forward to hearing back from you.

Many thanks,
Mary C.

**RE: Tupper Lake Wastewater Treatment Plant
SPDES Number NY002**

Dear Mayor Maroun:

On June 20, 2018, I conducted a scheduled annual inspection at the Tupper Lake Wastewater Treatment Plant (WWTP). The primary purpose of the inspection was to assess compliance with the terms and conditions of the above referenced State Pollutant Discharge Elimination System (SPDES) permit. Present was the Chief Operator, Mark Robillard. Overall, the inspection was rated satisfactory. The details of the inspection are provided in the attached inspection report.

If you have any questions or comments, please feel free to contact me at (518) 897-1263 or by email at thomas.waite@dec.ny.gov.

Sincerely,

Thomas Waite, EIT
Environmental Engineer 1

Comments:

*Village has hired C2AE to perform engineering work associated with new sodium hypochlorite disinfection and dechlorination system. This work may include additional improvements at the facility, including overhauling the primary clarigestors.

*Village has also received an Engineering and Planning Grant to investigate infiltration and Inflow (I&I) problems within the collection system.

Re: Village of Tupper Lake, PWS ID Number NY 1600012 USEPA Administrative Order Docket No.
SDWA-02-2018-8045
Progress Report

Dear Chief Kraft,

This letter serves as the thirteenth progress report submitted pursuant to requirements of Paragraph III.24 of the newly issued, above-named USEPA Administrative Order ("Order") for the Village of Tupper Lake, Franklin County, New York.

Activity since the May 31, 2018 Progress Report

- Pressure-testing and disinfection of the chlorine contact system was completed. All remaining water main was completed, passed tests, and put into service.
- Well pump start-up testing was completed. Controls start-up was completed and training has begun.
- Each well was sampled independently per the conditions of the Water Withdrawal Permit, passed inspection, and was put into service.

Anticipated activity within the next reporting period (July 1 to 31, 2018)

- With substantial completion now met, punchlists will be developed and administered for project completion.

In conclusion, I certify, under penalty of law, that the information contained in or accompanying this submission is true, accurate and complete based upon representations as to accuracy and completeness made to me either orally or through submission of documentation by appropriate personnel with responsibility for the matter contained herein.

Sincerely,
C2AE

A handwritten signature in dark ink, appearing to read 'Kevin P. Feuka', written over a horizontal line.

VILLAGE OF TUPPER LAKE

WATER/WASTEWATER PROJECT MEETING MINUTES

7/12/2018 – 2:30 p.m. Village of Tupper Lake Municipal Offices

Attendees: Mary Casagrain, Melissa McManus, Paul O’Leary, Patti Littlefield, Ron LaScala, Mark Robillard, Kevin Feuka, Carrie Tuttle

Project Status & Funding Report

1) Water Projects

a. Base Village Project Progress/Status –

- a.i. NYSDOT highway work permitting meeting has been completed. M. Robillard received the Perm 32 to DOT for Hay Meadow work (for connection into water line on NYS RT3) and the work is complete and system online.
- a.ii. Punch lists and substantial completion was issued for all contracts. Copies of the punch lists were requested to be distributed to stakeholders.
- a.iii. Water Withdrawal Permit has been issued by NSYSDEC and there is a requirement in the permit to leak test and meter. M. Robillard drafted a letter to DEC and will share a copy with the project team.
- a.iv. There will be an over-under change order and the current estimate is ~\$50k less than anticipated. K. Feuka reported this would be issued shortly but not in time for 7/18 meeting. C. Tuttle requested copies to be able to update the budget.
- a.v. Mitchell Lane –Change Order has been approved; however EFC/DOH notified Village that amended SEQR would be required. C2AE has initiated the process and work cannot commence until this process is complete (45 to 60 days – mid-end of August). SEQR findings and resolution of no impact would be issued at the 8/15/18 meeting. Published in ENB on 8/29/18.
- a.vi. Village priorities for remaining contingency (i.e., large water meters, leak detection, control system upgrades, etc.?) There appears to be ~\$130k left in the contingency but this number will need to be updated after the final over/under change order is issued. Quotes need to be obtained for large meters, leak detection equipment, and Aqualogics for control upgrades (Mark Robillard); K. Feuka will research whether Hay Meadow work was included in engineering report and could be eligible.

- a.vii. P. O'Leary mentioned there was a minor issue with the cedar hedgerow that was installed at the Santa Clara station. The hedgerow was installed for visual screening and the concern is that deer will eat the cedar. Spruce may be a better option. The issue has been closed and is not being addressed at this time.

b. T/Tupper Lake WD#3 Improvement Project Progress/Status

- b.i. Plans have been submitted to Town of Tupper Lake and to NYSDOH for approval and approvals granted.
- b.ii. APA permit application has been deemed complete and is going in next week for public comment in ENB. Contractor may be able to start work ~mid-August based on timing of permit issuance. New plan may have cost impacts and contractor is reviewing this (estimated at \$30k but will need contractor to provided updated costs).
- b.iii. At the May project progress meeting questions were raised about the antenna that was needed for communication. The antenna was planned to be 16' higher than the tank height that was originally submitted. At the June meeting C2AE said they would explore other options as this could impact the permit approval for the tank. Fiber connection could cost up to \$30k so other options will need to be explored. Aqualogics has indicated that radio network may work based on desktop evaluation but confirmation from field verification is required. C2AE will reach out to Aqualogics to schedule field visit.
- b.iv. Tank Color – From June meeting, Planning board has approved the recommendations on tank color from APA yet as they will complete one approval for entire site plan. Charcoal grey color was approved with site plan.
- b.v. SHPO – archeological survey was completed; no impact letter was issued 7/18.
- b.vi. Funding
 - b.vi.1. Update on project schedule was provided to ESD. Substantial completion estimated by 11/30/18, pending APA approval. C2AE will confirm with contractor that this date is still accurate given delays in permitting.

2) Wastewater Improvement Project

a. Engineering & Permitting

- a.i. Agreements executed and MWBE Plan approved.

b. Schedule –

- b.i. Survey complete. Borings will be completed after layout is done. Once that is done the design can be finalized.
- b.ii. C2AE is planning to finish the effluent project by the end of August for agency review and implementation/construction in November and December. 50% complete drawings by next 1-2 weeks.
- b.iii. The balance of the WWTP design project is planned for completion by the end of October for agency review and bidding in January for spring construction start.

c. Funding

- c.i. EFC indicated that no additional items are required from Village at this time and closing would occur no later than 9/30/18.
- d. Sewer Main Break – EFC indicated expenses for main break would be eligible expenses; can't submit until after project closes on funding (~Sep. 2018).

Funding Source	Amount
NYWG	\$1,605,394
NYSEFC 0% Loan	\$4,816,184
Total ->	\$6,421,578

3) I&I Study – awaiting contract from EFC.

a. Engineering & Permitting

a.i. Agreements

- Engineering Agreement & UP – executed copy 5/31/2018 for \$108,000.
- DANC – executed January 23, 2018 for \$10,000
- Legal - recommended to use regular Village counsel, Nathan Race. Separate agreement is not necessary. Budget = \$2,000.

b. Funding

EPG for Infiltration/Inflow Study required per modified SPDES permit	\$100,000
Village Match	\$20,000
TOTAL	\$120,000

4) Other

- a. ACR Update (Melissa McManus) - ACR has hired McFarland Johnson to complete some engineering for them. M. McManus reported that there were no additional updates to report on at this meeting.

5) Next Meeting – August 9, 2018 2:30 pm. at Village of Tupper Lake, NY offices.

1		Germinate grass		\$500
2		Install hydrant flags		\$100
3		Install valve markers		\$100
4		Label test station for stream crossing		\$100
5		Continuity test on trace wire for stream crossing		\$2,000
6		Locate curbstop for 21 Underwood Road		\$100

Street	House	Item	Completed Date	Est Cost
Pine				
1		germinate grass		\$500
2		Touch up Paint on Hydrant		\$100
3		Install Hydrant flags		\$100
4		Install valve markers		\$100
5		Install meterpit markers		\$100
5		Provide temporary plug in top of meter pit to eliminate hole in lid		\$500
6		Provide key for meter pit lid		\$100
7		Continuity test on trace wire for stream crossing		\$2,000
8		Install correct test station for trace wire termination at stream crossing		\$500
9		Install correct top for new curbstop servicing the Town Highway garage (2 hole not single nut)		\$100
10		Hydrant valve by highway garage cannot be located to check valve box alignment, please locate		\$100
11		Crushed stone need around valve box near railroad tracks		\$100

Road	House	Item	Completed Date	Est Cost
McLaughlin				
1		Germinate grass		\$500
2		Install valve markers		\$100
3		Continuity test on trace wire for drill by substation		\$2,000
4		Label test station for stream crossing		\$100
5		Repair road cut out patch +/- sta 14+50		\$100
6		Repair asphalt edge of pavement +/- sta 17+00 to sta 21+00		\$2,000
7		Valve box sta 24+94 fill around with crushed stone to make box flush with driveway grade		\$100
8		Paint Lines on Highway		

Road	House	Item	Completed Date	Est Cost
Kildare				
1		Germinate grass		\$500
2		Install valve markers		\$100
3		Continuity test on trace wire for all hdpe watermain		\$8,000
4		Install remaining trace wire test stations		\$100
5		Lower all valve boxes to grade		\$1,000
6		Valve box sta 24+94 fill around with crushed stone to make box flush with driveway grade		\$100

Total \$67,000
Total X2 \$134,000

		Completed Date	Est Cost
Well Building			
1	Close/insulate all access into attic space		\$100
2	Finish Countertop install		\$200
3	Finish base board install		\$100
4	Park concrete decking by access ladder going into gally		\$100
5	Remove gap below chlorine room doors		\$100
6	Remove gap on bottom of entrance door		\$100
7	Chlorine room doors do not shut tight		\$100
8	Both interior doors appear to be installed backwards		\$100
9	Clean entire building		\$2,000
10	Install correct cover on drywell		\$300
11	Install correct cover on septic tank		\$300
12	Flashing, fascia, drip edge is lifting, causing shingles to lift - needs correcting		\$7,000
13	Remove silt fence		\$100
14	Clean excess mortar of split face block		\$500
15	Mortar gaps in split face block		\$100
16	Top corner blocks have cuts in them that need mortar		\$200
17	Germinate grass		\$1,000

	House #	Item	Completed Date	Est Cost
Pump Station				\$100

Subject: Tupper Lake Water/Wastewater Coordination Meeting Minutes

From: Carrie Tuttle <ctuttle@danc.org>

Date: 7/13/2018 7:57 AM

To: "Melissa McManus - Melissa McManus LLC

(tupperlakecommunitydevelopment@gmail.com)"

<tupperlakecommunitydevelopment@gmail.com>, Paul Maroun <wawbeek@aol.com>, Mary Casagrain <villtupplake@centralny.twcbc.com>, Mark Robillard <norbert0222@yahoo.com>, Ron LaScala <adkappliancerepair@hotmail.com>, "Paul O'Leary" <poleary@townoftupperlake.com>, Patti Littlefield <plittlefield@townoftupperlake.com>, "PE Kevin P. Feuka (kevin.feuka@c2ae.com)" <kevin.feuka@c2ae.com>

Good Morning –

Minutes from yesterday's meeting are attached. Please let me know if I've missed anything.

Thanks,
Carrie

VILLAGE OF TUPPER LAKE

WATER/WASTEWATER PROJECT MEETING MINUTES

7/12/2018 – 2:30 p.m. Village of Tupper Lake Municipal Offices

Attendees: Mary Casagrain, Melissa McManus, Paul O'Leary, Patti Littlefield, Ron LaScala, Mark Robillard, Kevin Feuka, Carrie Tuttle

Project Status & Funding Report

1) Water Projects

a. Base Village Project Progress/Status –

- a.i. NYSDOT highway work permitting meeting has been completed. M. Robillard received the Perm 32 to DOT for Hay Meadow work (for connection into water line on NYS RT3) and the work is complete and system online.
- a.ii. Punch lists and substantial completion was issued for all contracts. Copies of the punch lists were requested to be distributed to stakeholders.
- a.iii. Water Withdrawal Permit has been issued by NSYSDEC and there is a requirement in the permit to leak test and meter. M. Robillard drafted a letter to DEC and will share a copy with the project team.
- a.iv. There will be an over-under change order and the current estimate is ~\$50k less than anticipated. K. Feuka reported this would be issued shortly but not in time for 7/18 meeting. C. Tuttle requested copies to be able to update the budget.
- a.v. Mitchell Lane –Change Order has been approved; however EFC/DOH notified Village that amended SEQR would be required. C2AE has initiated the process and work cannot commence until this process is complete (45 to 60 days – mid-end of August). SEQR findings and resolution of no impact would be issued at the 8/15/18 meeting. Published in ENB on 8/29/18.
- a.vi. Village priorities for remaining contingency (i.e., large water meters, leak detection, control system upgrades, etc.?) There appears to be ~\$130k left in the contingency but this number will need to be updated after the final over/under change order is issued. Quotes need to be obtained for large meters, leak detection equipment, and Aqualogics for control upgrades (Mark Robillard); K. Feuka will research whether Hay Meadow work was included in engineering report and could be eligible.

- a.vii. P. O'Leary mentioned there was a minor issue with the cedar hedgerow that was installed at the Santa Clara station. The hedgerow was installed for visual screening and the concern is that deer will eat the cedar. Spruce may be a better option. The issue has been closed and is not being addressed at this time.

b. T/Tupper Lake WD#3 Improvement Project Progress/Status

- b.i. Plans have been submitted to Town of Tupper Lake and to NYSDOH for approval and approvals granted.
- b.ii. APA permit application has been deemed complete and is going in next week for public comment in ENB. Contractor may be able to start work ~mid-August based on timing of permit issuance. New plan may have cost impacts and contractor is reviewing this (estimated at \$30k but will need contractor to provided updated costs).
- b.iii. At the May project progress meeting questions were raised about the antenna that was needed for communication. The antenna was planned to be 16' higher than the tank height that was originally submitted. At the June meeting C2AE said they would explore other options as this could impact the permit approval for the tank. Fiber connection could cost up to \$30k so other options will need to be explored. Aqualogics has indicated that radio network may work based on desktop evaluation but confirmation from field verification is required. C2AE will reach out to Aqualogics to schedule field visit.
- b.iv. Tank Color – From June meeting, Planning board has approved the recommendations on tank color from APA yet as they will complete one approval for entire site plan. Charcoal grey color was approved with site plan.
- b.v. SHPO – archeological survey was completed; no impact letter was issued 7/18.
- b.vi. Funding
 - b.vi.1. Update on project schedule was provided to ESD. Substantial completion estimated by 11/30/18, pending APA approval. C2AE will confirm with contractor that this date is still accurate given delays in permitting.

2) Wastewater Improvement Project

a. Engineering & Permitting

- a.i. Agreements executed and MWBE Plan approved.

b. Schedule –

- b.i. Survey complete. Borings will be completed after layout is done. Once that is done the design can be finalized.
- b.ii. C2AE is planning to finish the effluent project by the end of August for agency review and implementation/construction in November and December. 50% complete drawings by next 1-2 weeks.
- b.iii. The balance of the WWTP design project is planned for completion by the end of October for agency review and bidding in January for spring construction start.

c. Funding

- c.i. EFC indicated that no additional items are required from Village at this time and closing would occur no later than 9/30/18.
- d. Sewer Main Break – EFC indicated expenses for main break would be eligible expenses; can't submit until after project closes on funding (~Sep. 2018).

Funding Source	Amount
NYWG	\$1,605,394
NYSEFC 0% Loan	\$4,816,184
Total ->	\$6,421,578

3) I&I Study – awaiting contract from EFC.

a. Engineering & Permitting

a.i. Agreements

- Engineering Agreement & UP – executed copy 5/31/2018 for \$108,000.
- DANC – executed January 23, 2018 for \$10,000
- Legal - recommended to use regular Village counsel, Nathan Race. Separate agreement is not necessary. Budget = \$2,000.

b. Funding

EPG for Infiltration/Inflow Study required per modified SPDES permit	\$100,000
Village Match	\$20,000
TOTAL	\$120,000

4) Other

- a. ACR Update (Melissa McManus) - ACR has hired McFarland Johnson to complete some engineering for them. M. McManus reported that there were no additional updates to report on at this meeting.

5) Next Meeting – August 9, 2018 2:30 pm. at Village of Tupper Lake, NY offices.

VILLAGE OF TUPPER LAKE

53 PARK STREET
PO BOX 1290

Legal Notice Request For Bids Tree Trimming and Removal Route 30 South

Sealed bids will be received at the office of the Village Clerk, Village of Tupper Lake, 53 Park Street, PO Box 1290, Tupper Lake, New York 12986, Telephone (518) 359-3341 until 3:00 pm on August 15, 2018 for the purpose of furnishing tree trimming and removal for the Village of Tupper Lake Municipal Electric System:

“Tree Trimming and Removal – Route 30 South”

- The Village Board of Trustees reserves the right to waive any information in and to reject any and all bids submitted and to re-advertise it, if in their judgment, such course will be to the best interest of said Village.
- All bids must be accompanied by a non-collusive bidding affidavit required by Section 103 and 103-D of the General Municipal Law of the state of New York.
- Bids should not include sales and compensatory use taxes on materials purchased.
- All bids must be submitted in a sealed envelope marked **“Bid: Tree Trimming and Removal – Route 30 South.”**
- This legal notice, specifications, and non-collusive affidavit is available by request or may be picked up at the Village Clerk’s office, Monday through Friday, between 8:00 am and 4:00 pm.

By order of the Village Board of Trustees
Village of Tupper Lake, New York
Mary A. Casagrain, Village Clerk/Treasurer

2019 HSA Limits Announced

The IRS recently announced that limits for health savings account (HSA) contributions will increase for 2019. The high deductible health plan (HDHP) maximum out-of-pocket limits will also increase for 2019. The HSA contribution limits will increase effective Jan. 1, 2019, while the HDHP limits will increase effective for plan years beginning on or after Jan. 1, 2019.

These limits vary based on whether an individual has self-only or family coverage under an HDHP.

Because the cost-sharing limits for HDHPs will change for 2019, employers that sponsor these plans may need to make plan design changes for plan years beginning in 2019.

Also, if an employer communicates the HSA contribution limits to employees as part of the enrollment process, these enrollment materials should be updated to reflect the increased limits that apply for 2019.

New Limits

The following chart shows the HSA and HDHP limits for 2019 as compared to 2018:

2019 HSA Contribution Limit

Family - \$7,000 (up \$100)
Self-only - \$3,500 (up \$50)

2019 HSA Catch-up Contributions

Age 55+ - \$1,000 (no change)

2019 HDHP Minimum Deductible

Family - \$2,700 (no change)
Self-only - \$1,350 (no change)

2019 HDHP Maximum Out-of-pocket Expense Limit

(Deductibles, copayments and other amounts, but not premiums)

Family - \$13,500 (up \$200)
Self-only - \$6,750 (up \$100)

ACA Affordability Percentages Will Increase for 2019

The IRS recently issued a [Revenue Procedure](#) to index the contribution percentages used to determine the affordability of an employer's plan under the Affordable Care Act (ACA).

These updated affordability percentages are effective for taxable years and plan years beginning Jan. 1, 2019. They represent a significant increase from the affordability contribution percentages for 2018.

As a result, some employers may have additional flexibility with respect to their employee contributions for 2019 to meet the adjusted percentage.

Affordable Coverage Test

For plan years beginning in 2019, employer-sponsored coverage will be considered affordable if the employee's required contribution for self-only coverage does not exceed the following percentages:

CONTINUED ON PAGE 2

BURNHAM
BENEFIT ADVISORS

ESTABLISHED 1977

Benefits BULLETIN

2019 Affordability Percentages

9.86 percent of the employee's household income for the year, for purposes of both the pay or play rules and premium tax credit eligibility

- **8.3 percent** of the employee's household income for the year, for purposes of an individual mandate exemption (adjusted under separate guidance)

This adjustment means that employer-sponsored coverage for the 2019 plan year will be considered affordable under the employer shared responsibility rules if the employee's required contribution for self-only coverage does not exceed 9.86 percent of the employee's household income for the tax year.

The 2018 affordability percentage for the pay or play rules and premium tax credit eligibility was 9.56 percent. The 2018 percentage for the individual mandate exemption was 8.05 percent.

For more guidance on this and other compliance topics, contact Burnham Benefit Advisors today.

Don't Forget About PCORI Fees

The ACA imposes a fee on health insurance issuers and plan sponsors of self-insured health plans to help fund the Patient-Centered Outcomes Research Institute. The fee, called the Patient-Centered Outcomes Research Institute (PCORI) fee, is calculated based on the average number of lives covered under the policy or plan.

The fee applies to policy or plan years ending on or after Oct. 1, 2012, and before Oct. 1, 2019. The PCORI fee is filed using IRS Form 720, Quarterly Federal Excise Tax Return. Form 720 must be filed annually, by July 31 of each year.

Special Rule for Coverage Under Multiple Applicable Self-insured Health Plans

Generally, separate fees apply for lives covered by each specified health insurance policy or applicable self-

insured health plan. However, two or more applicable self-insured health plans may be combined and treated as a single applicable self-insured health plan for purposes of calculating the PCORI fee if the plans have the same plan sponsor and the same plan year.

For example, if amounts in a health reimbursement arrangement (HRA) may be used to pay deductibles and copays under a specified health insurance policy, the HRA and the insurance policy would be subject to separate PCORI fees. However, an HRA that may be used to pay deductibles and copays under an applicable self-insured health plan is not subject to a separate fee if both the HRA and the applicable self-insured health plan have the same plan sponsor and the same plan year.

There is no similar rule for lives covered by more than one insurance policy subject to the PCORI fee.

Special Counting Rule for HRAs and FSAs

Plan sponsors are permitted to assume one covered life for each employee with an HRA, even if the HRA can reimburse expenses of the employee's family members. Similarly, plan sponsors are permitted to assume one covered life for each employee with a flexible spending account (FSA).

Qualified Small Employer HRA (QSEHRA)

Plan sponsors of applicable self-insured health plans must file Form 720 annually to report and pay the PCORI fee; a QSEHRA is an applicable self-insured health plan for this purpose.

Benefits BULLETIN

New Resources for Mental Health Parity Compliance

The Department of Labor (DOL) has provided new resources to promote compliance with the Mental Health Parity and Addiction Equity Act (MHPAEA). The MHPAEA requires parity between mental health and substance use disorder (MH/SUD) benefits and medical and surgical benefits.

Employers should work with their issuers and benefit administrators to confirm that their health plan's coverage of MH/SUD benefits complies with the MHPAEA, including any nonquantitative treatment limitations (NQTLs). Employers should consider using the DOL's resources to understand the MHPAEA's requirements and review their plan designs.

Mental Health Parity

The MHPAEA is a federal law that generally prevents group health plans and health insurance issuers that provide MH/SUD benefits from imposing less favorable benefit limitations on those benefits than on medical and surgical coverage. The MHPAEA's parity requirements generally apply to group health plans and health insurance issuers that provide coverage for MH/SUD benefits in addition to medical and surgical benefits.

Parity Requirements

Under the MHPAEA, the financial requirements (such as coinsurance and copays) and treatment limitations (such as visit limits) applicable to MH/SUD benefits cannot be more restrictive than the predominant requirements or limitations applied to substantially all medical and surgical benefits in a benefit classification.

In addition, the MHPAEA imposes parity requirements on the NQTLs that plans may place on MH/SUD benefits. An NQTL is generally a limitation on the scope or duration of benefits for treatment. NQTLs include medical management standards, formulary designs for prescription drugs, plan methods for determining usual, customary and reasonable charges, exclusions based on a failure to complete a course of treatment, and restrictions based on facility type or provider specialty.

The MHPAEA requires group health plans and issuers to disclose certain information to plan participants regarding the plan's coverage of MH/SUD benefits, including the following:

Upon request, health plan sponsors and issuers must disclose information on medical necessity criteria for both medical and surgical and MH/SUD benefits, as well as the processes, strategies, evidentiary standards, and other factors used to apply an NQTL with respect to medical and surgical and MH/SUD benefits. To avoid possible penalties under ERISA, plan sponsors should respond to these requests within 30 calendar days. If a plan sponsor does not respond within 30 calendar days, penalties of up to \$110 per day may apply.

Group health plans that are subject to ERISA must provide the reasons for a denial of MH/SUD benefits in the plan's claim denial notice in accordance with the DOL's claims procedure regulations. Participants in plans that are not subject to ERISA may request this information, and the plan sponsor must respond within a reasonable time and in a reasonable manner.

MHPAEA Enforcement

The DOL, through its Employee Benefits Security Administration (EBSA), enforces the MHPAEA's requirements for private-sector employment-based health plans. Vigorous enforcement of the MHPAEA has been one of the DOL's top enforcement priorities. When the EBSA identifies MHPAEA violations in a specific group health plan, it asks the plan to make necessary changes to any noncompliant plan provision and to re-adjudicate any improperly denied benefit claims.

In fiscal years 2016 and 2017, the EBSA closed 671 health plan investigations, 378 of which included reviews of MHPAEA compliance. These investigations resulted in 136 citations for MHPAEA violations. During the 2017 fiscal year, almost 50 percent of MHPAEA violations involved NQTLs.

More information regarding MHPAEA compliance is available on the DOL's [website](#) for MH/SUD parity.

Myth Busted: Sweating More Doesn't Necessarily Mean You Burned More Calories

Many people wrongly believe that how much you sweat indicates how effective your workout was. How much you sweat during a workout is due to a variety of factors such as weight, gender, age, genetics, temperature and even fitness level.

For example, men tend to sweat more than women, younger people tend to sweat more than older people and fit people tend to sweat more than those who are less fit.

So remember, don't use sweat as an indicator for how intense your workout was. Instead, track your heart rate, level of muscle soreness and amount of progress seen to evaluate whether or not your workouts are effective.

WHO Calls for a Ban on Artificially Produced Trans Fat

The World Health Organization (WHO) says that the artificially produced trans fats found in junk and fried foods contribute to more than 500,000 preventable deaths annually. That's why the WHO has released REPLACE, a guide for governments to eliminate industrially produced trans fat in their countries. Their goal is to remove all artificially produced trans fats from the global food supply by 2023.

What exactly is trans fat?

Trans fat is vegetable fat that has been chemically altered by a process called hydrogenation. This process turns healthy fat into a solid, unhealthy fat that is worse for you than saturated fat. Trans fats boost low-density lipoprotein (LDL or bad cholesterol) levels and can increase your risk of heart disease by 21 percent.

What can you do now to avoid eating and drinking trans fats?

The WHO's campaign was launched mid-May 2018 and is in its early stages, which means it might take some time to see changes in the United States. In the meantime, you can read nutrition labels and look at the amount of saturated fat and trans fat per serving.

It's also important to check the ingredient list, which is different from the nutritional label. Ingredient information is listed from greatest to smallest amounts, so if partially hydrogenated oils or high fructose corn syrup are listed as the first few ingredients, choose another product.

To learn more about trans fats and their health effects, click [here](#).

Lemon Velvet Supreme

- 2 cups fat-free vanilla yogurt
- 3 Tbsp. instant lemon pudding mix
- 4 graham crackers (crushed)
- ½ cup mandarin orange slices (drained)

PREPARATIONS

1. Combine vanilla yogurt and pudding mix. Stir until combined.
2. Layer bottom of serving dish with crushed graham crackers.
3. Immediately pour pudding mixture over cracker crumbs.
4. Top with mandarin oranges.

Makes: 6 servings

Snack Smart, Save Money, Time and Calories

It's completely normal to snack throughout the workday. While it can be tempting to opt for the fast, easy (but unhealthy) option, taking a minute to snack smart can save you time, money and calories. Keep the following three tips in mind to help you snack smart at the office.

1. **Take a break.** When you reach for your snack at work, don't eat it while working. Instead, take a quick break to eat your snack uninterrupted to avoid overeating.
2. **Meal prep your snacks.** One of the best ways to avoid impulsively purchasing unhealthy snacks from the vending machine is to pre-portion your healthy snacks at the beginning of the week and bring them with you to work.
3. **Think about macronutrients.** Try to combine macronutrients (protein, fat and carbohydrates) at each snacking session. Doing so will help you feel satisfied and full until it's time for your next meal.

Click [here](#) to learn about nutritionist-approved healthy snack options.

Snacks with 100 Calories or Less

Here are some great snack options that come in portion sizes of 100 calories or less:

String cheese—Opt for an individually wrapped piece of string cheese to get your fill of protein and calcium at less than 100 calories per serving.

Popcorn—Available in 100-calorie individual servings, you can get a good amount of whole grains from this snack.

Nuts—Unsalted nuts and seeds have many beneficial nutrients to keep you feeling full. Check portion sizes to keep your calories under 100.

HR Brief

Human Resources tips brought to you by

July 2018

IQ or EQ: What's More Valuable to Your Company?

The smartest person is usually considered the best person for a job, especially when it comes to leadership. However, HR experts argue that traditional intelligence (book smarts) may not be as important as emotional intelligence (people smarts).

What is Emotional Intelligence?

Emotional intelligence (EQ, or emotional quotient) can be summed up by a few characteristics:

- The ability to evaluate one's own emotions and their greater impact
- Solid understanding of one's abilities and self-worth
- An innate desire to help toward the greater good

In other words, having a high EQ means you work well with others because you understand how your and your co-workers' emotions affect each other. The argument goes: if our behavior is dictated by our emotions, then understanding them is the key to long-term success.

Making Emotions Work for You

Leaders who understand emotions can channel that energy into producing desired results. For instance, managing employees is much easier when you can empathize and understand them on an emotional level. Nothing builds barriers faster than a perceived misunderstanding from a manager.

Considerations

Overall, EQ is a fluid area of study, like most aspects of the brain. There are still many unknowns, so one cannot definitively say if emotional intelligence is the trump card for leaders. However, raising the EQ of managers even slightly can help with employee relations.

Consider offering EQ training to managers to help them relate better with their employees. You may be surprised how far a little emotional understanding can go.

DID YOU KNOW?

The General Data Protection Regulation (GDPR) is now in effect. This regulation affects U.S. businesses that have international ties.

The GDPR provides individuals with more control over their personal data.

Failing to comply with the GDPR can mean millions in fines. Speak with us to learn more about how this regulation may impact you.

Ignoring Diversity Training? You Should Reconsider

Starbucks made national news in May when it closed over 8,000 stores so its employees could undergo diversity training.

The training was in response to an incident where police were inappropriately called on two black men who were sitting peacefully in the store.

The incident sparked a national conversation about race and caused many companies to reassess their diversity training efforts, none wanting to be part of a future headline.

Make sure employees are properly trained so customers and members of the community can enjoy a pleasurable experience with your company.

ESTABLISHED 1977
